Conference Theme and Activities

Many, if not most of us, have significant challenges when faced with conflict. Often, this creates a considerable gap between our strongest values and our actions. Learning tools and skills to handle conflicts with positive outcomes, combined with our capacity to use our imagination in helping create a sustainable world for all, will enable us to more closely match our actions with our values. The 2019 Spring Assembly is designed to provide a forum to achieve this outcome.

Please bring issue-related information, handouts, petitions, etc. to display and distribute on our Information Tables, and announcements for our Announcement Wall.

Pre-register by Friday, March 29th., this will help us plan. However, do come even if you don't register ahead of time. Suggested donation: \$20.00, or whatever you can pay. Lunch will be provided; music by members of Seattle Labor Chorus.
